

**COMPANY PROFILE
TELECOM**

turnkey service providers to the telecoms industry

Our company

Mission Statement

To provide a level of service that will exceed the expectations of clients

Vision

To be the leading, Telecom and ICT infrastructure provider in African continent.

About Us

Peertech Company Ltd (Registered by BRELA-Tanzania in 2011) is one of the Tanzania emerging infrastructure provider specialized in Telecommunications and ICT sector, delivering turnkey solutions to its clients for both local and East African markets

Peertech company limited has successfully delivered projects on time, within budget and to the required quality, while maintaining focus on continuous improvement on internationally accepted standards. Today, Peertech delivers one of the telecommunications industry's broadest portfolios of engineering, materials and services to operators, as well as partnering with equipment manufacturers and infrastructure providers within the telecommunications and energy sectors.

Cellular radio and transmission planning:

- 2G,3G, 4G and WiMAX coverage plots and database planning
- Optic fibre route planning
- PDH and SDH transmission link planning budgets

Civil works:

Experienced teams are managed to construct sites to customer specifications. Peertech has a verifiable track record of high quality site builds. Rigid quality control procedures ensure that all equipment provided to site is handed over to the client fully functioning with warranty compliant documentation.

BSS:

Our qualified technical staff and subcontractors carry out Network design, Project Management, Installation, Commissioning, Integration ,Optimisation and maintenance of all major suppliers' Base Stations, Base Station Controllers and Transcoders. Antenna optimisation forms part of the Integration and Optimisation process.

What we do

Transmission:

Fully resourced and trained teams of riggers Install and Commission all major suppliers' Radio and Optical transmission equipment, providing documented frequency and tributary management records as part of the acceptance procedures. Transmission planning, including compression, timeslot grooming and cross connection for expanding networks is offered as part of a full range of transmission services.

Power:

Certified electricians, trained on telecommunications power supply equipment such as Rectifiers, Batteries, Standby Generators, Uninterruptible Power Supplies and all associated reticulation, ensure that power systems on site are adapted to local conditions providing stable supplies to critical equipment. Where possible and practicable, renewable systems are utilised . Our engineers are on constant technology watch for useable developments in cost effective power supply equipment.

Optic fibre:

Full installation, commissioning and maintenance services on fibre optic projects. Trenching is conducted according to internationally accepted standards where restitution and public safety is concerned. Cables professionally blown into ducts, spliced and commissioned according to industry accepted practices.

Optimisation:

Peertech offers a wide range of optimisation services for all types of equipment. Our solutions are customised to derive the maximum return on capital investments and reduction of operational expenditure.

Our difference

We have a professional, well resourced and motivated team of individuals who, are able to manage the entire site build process. The team is packed with expertise and has in excess of 15 year's combined experience in the communications and energy arenas.

We are proud to be able to our customers the services of some of the best civil, electrical and telecommunications engineers available . The rich breadth of experience gained though a combination of targeted training and on the job experience has produced a team able to envisage networks as a system rather than a collection of discreet components.

Safety Accreditation

Health & Safety:

Peertech is committed to providing and maintaining a healthy and safe working environment for all our staff, customers and the general public.

We, as a company, have made detailed arrangements for the implementation of our Health & Safety Policy as outlined:

- To comply with relevant local and international health and safety legislation
- To set and maintain high standards of construction and installation safety with an annual review of the Peertech Safety Policy
- To identify hazards, assess risks and implement control procedures
- To ensure that staff, customers and visitors are adequately informed of risks, and where appropriate, receive instruction, training and supervision.
- To document and review risk assessments
- To implement this policy through codes of practice, schedules, guidance notes and training
- To safeguard the environment from the effects of Peertech's service activities
- To monitor and review the effectiveness of controls
- To ensure the provision of a trained health and safety co-ordinator having adequate time, resources and facilities to carry out their responsibilities
- To ensure that all sites conform to local and international standards
- To ensure that all personnel are issued with the necessary safety resources, such as Personal Protective Equipment, and receive appropriate training in order to carry out their functions safely.

Experience and reputation:

Peertech has broad ranging experience and a first class reputation with many leading manufacturers of Telecommunications and Energy equipment.

Financial stability:

Peertech is a financially stable entity, with the ability to engage in projects of all sizes. Through our long standing relationships with financial institutions we are able to arrange project financing.

Service excellence:

Peertech prides itself on providing top quality throughout its portfolio of services. All work delivered by the company will be supported for the duration of the guarantee period.

Insurance cover:

Peertech is fully insured and is fully covered with all the required insurance policies complying with local laws and our client's specific requests. These policies include 'Public Liability', Group Personal Accident', 'All Risks', Workmen's Compensation', Fidelity Guarantees' and 'Fire & Theft'.
